

LARGE WAREHOUSE FACILITY - SACRAMENTO, CA

PROJECT DESCRIPTION

A large internet retailer needed a superior slab-on-ground for their large warehouse/order fulfillment facility. The company's use of robots called for extremely smooth concrete floors that would allow the machine's wheels to move without issues. To meet this need, FORTA-FERRO[®] was used to reinforce the **850,000 sq. ft. of concrete flooring** in order to **reduce cracking and curling**. Overall, the **project was extremely successful and FORTA-FERRO[®] worked well in satisfying the owners needs.**

KEY POINTS

- Reduced Cracking
- Mixed and Pumped Easily
- Reduced Slab Curling
- Superior Finish
