

T3-1/T4-1 DISTRIBUTION CENTER - INCHEON, S. KOREA

PROJECT DESCRIPTION

This 50,000 square meter T3-1/T4-1 distribution center consists of two separate centers. Each building has four floors above the ground level. The 4th floor of each structure, consisting of 10,000 square meters, each was reinforced with FORTA-FERRO[®] which **replaced traditional 7 mm @ 200 x 200 steel fabric**. Facility owners benefited from FORTA-FERRO[®]'s ability to **speed up the construction process and reduce cracking** compared to the traditional steel reinforcement.

KEY POINTS

- Superior Durability and Crack Control
- Quick Construction Process
- Project Cost Savings

DETAILS

Date: March 2017

Location: Incheon, South Korea
