

## CABIN BRANCH WINCHESTER HOMES - CLARKSBURG, MD

### PROJECT DESCRIPTION

Strong Stone of Maryland fabricates precast retaining walls for retention of slopes and other applications. The precast members contain 2 yards of concrete, measure 84" x 72" x 36". The units are hollow, **reinforced with FORTA-FERRO<sup>®</sup>**, and are filled with stone after placement. Cabin Branch is only one of several projects scheduled for these units. The face of the unit can be modified with different form liners.

### KEY POINTS

- Superior Strength
- Fast Turnaround
- Cost Effective
