

PERIMETER PARK - MORRISVILLE, NC

PROJECT DESCRIPTION

Perimeter Park is a master-planned office and industrial park, with more than 3.1 million square feet of existing space, and land available for up to another 1.5 million square feet of development. Located less than one mile from Raleigh-Durham International Airport, Perimeter Park is directly accessible from I-40 and I-540. The concrete for this project was pumped into place. **The project owner and contractor were pleased at the fact that wire reinforcement was not on the deck to cause tripping and the pump line would not catch and pull electrical/plumbing out of alignment.** The owner stated that they **saved a week of time from not having to place wire mesh** and they commented on the **less liability for possible injury** due to tripping on wire mesh. The use of FORTA-FERRO[®] benefited this project in many ways.

KEY POINTS

- Less Time Spent on Labor
- Extreme Durability
- Safer Working Environment

DETAILS

Date: 2013-2015

Location: Morrisville, NC

Dosage: 4.0 lbs. / cu. yd.

Fiber: FORTA-FERRO[®] 2-1/4"

Owner Type: Individual

Application: Slab-on-Metal-Deck
