

KISWIRE EXPANSION - NEWBERRY, SC

PROJECT DESCRIPTION

For this project, FORTA-FERRO[®] replaced #5 steel at 16" in an 8" slab. A major advantage that project workers saw was the **decrease in time needed to complete the project, saving time and money.** FORTA-FERRO[®] **eliminated the need to place steel rebar which improved job site safety.** The project engineers and contractors were **very impressed by the fibers** and they said they will use it in their next job!

KEY POINTS

- Save Time and Money
- Superior Durability
- Improved Safety
