

EXHIBITION CENTER - APPLETON, WI

PROJECT DESCRIPTION

A local exhibition center utilized FORTA-FERRO[®] to reinforce several concrete applications throughout their newly constructed building. These applications included the main exhibit hall, lobby areas, staircases, and exterior courtyard. A total of 6,000 lbs. of FORTA-FERRO[®] reinforced concrete was **easily mixed, even with a menagerie of dosages, and easily placed for all of the project applications.** FORTA-FERRO[®] aided in the **replacement of specified steel reinforcement, making the construction process simpler and safer.**

KEY POINTS

- Reduced Cracking
- Mixed and Pumped Easily
- Extreme Durability
