

PRODUCTION FACILITY- OOSTBURG, WI

PROJECT DESCRIPTION

FORTA-FERRO[®] was used to reinforce slab-on-ground applications for a production facility in Oostburg, WI. The use of FORTA-FERRO[®] benefited owners by adding **superior crack control and durability**. The facility's weight requirements range from light loads to heavy forklift traffic which necessitated varied fiber dosages. Due to the success of FORTA-FERRO[®] in their current and past projects, the **engineering firm is now specifying fiber in future designs**.

KEY POINTS

- Reduced Cracking
- Mixed and Pumped Easily
- Cost Effective
- Increased Safety
