

BIKE PATH - FRYSLÂN, NETHERLANDS

PROJECT DESCRIPTION

A bike path between Leeuwarden and Tytsjerk, along the N355, required a special top layer. The bike path was due for a makeover after the existing path was deteriorating. Instead of just adding a new coat of asphalt, the province of Fryslân decided to go with a more sustainable alternative. In result, a white topping was placed over the existing bike path. The addition of FORTA-FERRO[®] to the concrete mix **helped to increase durability and reduce cracking in the bike path.**

KEY POINTS

- Reduced Shrinkage Cracking
- Improved Durability
- Saved Money

DETAILS

Date: 2018

Location: Fryslân, Netherlands

Dosage: 2.0 & 3.0 kg. / cu. m.

Fiber: FORTA-FERRO[®] 54 mm

Application: Slab-on-Ground/Topping

Contractor: Schagen Infra

Distributor: Dutch Fiber Trading

DUTCH FIBER TRADING
