

FORGOTTEN HARVEST - OAK PARK, MI

PROJECT DESCRIPTION

Dedicated to relieving hunger in the Metro Detroit Area, Forgotten Harvest invested in this newly constructed multi-story building. FORTA-FERRO macro synthetic fibers **replaced specified steel mesh** at a dosage of 4.0 lb cu/yd in multiple applications. Due to supply chain issues, the cost of fiber reinforcement **saved money** compared to steel mesh and **eliminated safety issues** associated with storing and placing wire mesh.

KEY POINTS

- Increased Durability
- Saved Time & Money
- Replaced Steel Reinforcement

DETAILS

Date: 2021

Location: Oak Park, MI

Dosage: 4.0 lb/cu yd

Fiber: FORTA-FERRO® 2-1/4"
