

## MYGRANT GLASS CO. - CANTON, MI

### PROJECT DESCRIPTION

FORTA-FERRO macro synthetic fibers were specified at a dosage of 5.0 lb/cu yd in this newly constructed warehouse floor. Concrete was pumped in place and received a troweled finish. Owners were **happy with the cost of fiber compared to traditional steel mesh**, which made it very easy to choose FORTA-FERRO.

### KEY POINTS

- Increased Durability
- Saved Time & Money
- Ease of Use
