

Sheetz

Date: 2023

Location: New Concord, OH

Advantage: Cost Effective,
Reduced Cracking,
Improved Fatigue
Resistance

Technical Specifications

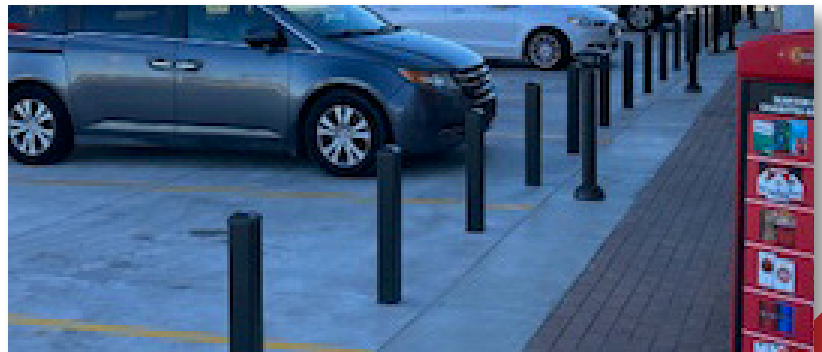

Application: Pavement

Fiber Reinforcement: FORTA-FERRO[®] 2-1/4"

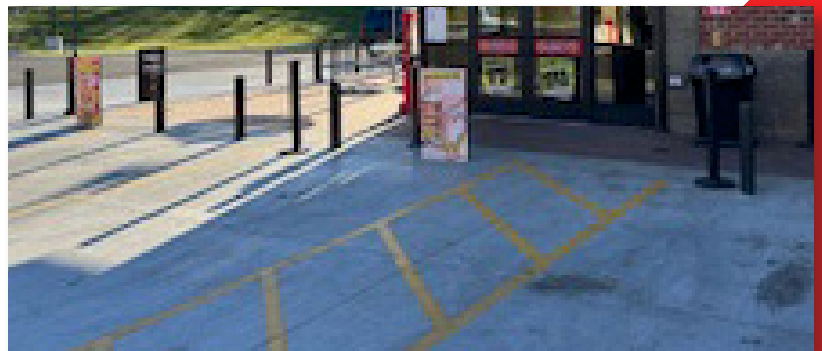

Dosage: 3.0 lb/cu yd

Delivery Method: Tailgated

Finishing Method: Broomed

FORTA-FERRO macro synthetic fibers were used to **improve concrete wearing** in the drive-thru, parking, and pump areas where heavy vehicle traffic and salt application would normally result in freeze/thaw cracking. This reinforcement fiber will not only **mitigate potential slab cracking** but also offers **cost savings** over steel reinforcement.
