

## Gateway Lodge

**Date:** 2022

**Location:** Cook Forest, PA

**Advantage:** Durability

### Technical Specifications

**Fiber Reinforcement:** FORTA-FERRO<sup>®</sup> 2-1/4"

**Application:** Pavement

**Dosage:** 5.0 lb/cu yd

**Total Project Size:** 530 yds

**Replaced:** #3 on 16 OCEW

**Delivery Method:** Tailgate

**Finishing Method:** Broomed

**FORTA-FERRO** reinforcement fiber replaced specified steel in this asphalt replacement pavement project. Due to the elevation changes and driveway configuration the contractor eliminated the traditional steel reinforcements and replace with macro synthetic fibers. This will create a **Stronger Lasting™ crack-free** driveway for many years to come.
