

## J.P. Express

**Date:** 2023

**Location:** Whitehall, PA

**Advantage:** Cost Effective,  
Time Saving, Improved  
Impact & Fatigue  
Resistance

Bazella Group  
Whitehall, PA  
[www.bazellagroup.com](http://www.bazellagroup.com)

## Technical Specifications

**Application:** Slab-on-Ground

**Fiber Reinforcement:** FORTA-FERRO<sup>®</sup> 2-1/4"

**Dosage:** 3.0 lb/cu yd

**Replaced:** Specified Wire Mesh

**Delivery Method:** Tailgated

**Finishing Method:** Steel-Troweled

This new warehouse and truck distribution center used **FORTA-FERRO** reinforcement fibers due to the **improved impact** and **fatigue resistance** capabilities. Without needing to wait on steel to be delivered and installed properly, this contractor was able to **stay on time** and **on budget**.
