

## TEAM HARDINGER - BARKEYVILLE, PA

### PROJECT DESCRIPTION

FORTA-FERRO replaced specified steel in this slab-on-ground commercial expansion. Eliminating the need for steel rebar allowed contractors to **increase the pour amount, saving both time and money**. This large warehouse floor will stay STRONGER LASTING<sup>®</sup> due to FORTA-FERRO's ability to **reduce concrete shrinkage and improved impact strength**. This was a successful first project for both the ready-mix supplier and contractor.

### KEY POINTS

- Save Time
- Save Money
- Increased Durability
