Technical Specifications

Fiber Reinforcement: FORTA-FERRO[®] 2-¼"

Application: Slab-on-Ground

Doasge: 3.0 lb/cu yd

Total Project Size: 1000 yd

Replaced: 6x6 10 gauge

Delivery Method: Tailgated

Finishing Method: Steel-Troweled

Contractors were able to decrease the number of pours and total project time in this industrial reconstruction. The use of **FORTA-FERRO** macro synthetic fibers **add durability and impact resistance** without the need for **costly and time consuming traditional steel** reinforcements.
